# I4 LAB

**Innovation Integration  
Incubation & Implementation**

I4 Lab or digital fabrication laboratory is a place to play, to create, to mentor and to invent: a place for learning and innovation. I4 lab provides access to the environment, skills, materials and advanced technology to allow anyone, anywhere to make (almost) anything.

## LAB PROGRAMS

**AIC-RNTU Provides Hands on Training & Workshops at I4 Lab to enhance the skills of the students & make them future-ready.**

### Essentials of 3D Printing

This program intends to enhance students' understanding on how to use this new age technology for their industry with hands-on training on 3D Printer. This course is ideal for students who are willing to start their own ventures and want to understand how 3D printing can be incorporated in their business to achieve their prototypes in less time.

### Hands on Training on Advanced Machining

This program is designed to help students learn how to use the cutting edge technologies and machines of the I4 Lab to get a competitive edge. The course involves training on using Vinyl Cutting Machine, 3D Printers, CNC Routers and Laser Cutting Machines.

**Our Lab is Recognized by  
Massachusetts  
Institute of Technology, USA**
