ABOUT THE CONFERENCE

The conference aims to provide a vibrant platform for academicians, administrators, industry experts, and other stakeholders to deliberate on the strategic integration of AI in higher education. It seeks to encourage speakers and delegates to share best practices adopted in their institutions, industries, and professional careers, aligned with the conference's themes. The key observations, recommendations, and outcomes from the deliberations of each technical session will be documented and consolidated as the official conference outcomes. The recommendations emanating from the conference will be submitted to the Association of Indian Universities (AIU) for onward transmission to the Ministry of Education for devising policies on AI. Therefore, the conference serves as an important platform for sharing best practices and collectively shaping the future of AI-driven transformation in higher education in India.

Key Themes of the Conference

AI-enabled teaching, learning and assessment

Curriculum transformation and future skills

AI in research and innovation

Institutional governance and data-driven decision-making

Ethical, social, and equity dimensions of AI

ABOUT AIU, NEW DELHI

Association of Indian Universities (AIU), the world's largest and one of the premier apex higher education institutions in the country, established in 1925, is a research-based policy advisory institution to the Government of India in the fields of Higher Education, Sports, Culture, and Internationalisation. At present, AIU has a membership of 1,180 universities, including 20 foreign universities as Associate Members. Since its inception, it has been playing a vital role in shaping Indian higher education. As an apex institution, it facilitates cooperation and coordination among Indian universities, liaises between universities and the Government, and with national and international bodies of higher education in other countries on matters of common interest. AIU has successfully traversed this long journey of 100 years, growing continuously in strength and stature, carrying forward the legacy and glory of Indian Higher Education. Dr. Sarvepalli Radhakrishnan, Dr. Zakir Hussain, and Dr. Syama Prasad Mukherjee are among the stalwarts who served AIU as its presidents.

ABOUT RNTU

Rabindranath Tagore University (RNTU), formerly known as AISECT University, was established in 2010 as Madhya Pradesh's first private university and is a

leading skill-based university in Central India. RNTU has been ranked in the NIRF for seven consecutive years and is the only university in Central India to have achieved this distinction. The University offers multidisciplinary programmes in Engineering, Science, Management,

Commerce, Law, Pharmacy, Agriculture, Medical Sciences, Humanities and Liberal Arts, among other fields, and has 22 Centres of Excellence dedicated to advanced learning, innovation and research. RNTU is committed to skill development, research, entrepreneurship, industry-academia collaboration and global academic engagement. The University places strong emphasis on industry-oriented education, employability and emerging technologies, fostering an ecosystem that connects academic learning with real-world applications. Through its research, innovation and collaborative initiatives, RNTU provides students and faculty with opportunities for interdisciplinary learning, professional development and global exposure. AIC-RNTU Foundation is the best Incubation Center of Central India established by NITI Aayog, Govt. of India and awarded by various government bodies.
