

# Call for Student Proposals!

## Prototype • Innovation • Research Project • Impact Study • Industry Live Projects

Under the CRIG-AGU Initiative

---

Dear Students,

- ✦ Ready to turn your ideas into reality?
- ✦ Passionate about innovation, research, or creating impact?

We are thrilled to invite you to participate in the **CRIG-AGU Call for Proposals** — a platform to **design, innovate, research, and create solutions** that can make a difference!

This is your moment to **showcase your creativity, technical skills, and research excellence** to the world! 🌍

---

## Who Can Apply?

- All **Undergraduate, Postgraduate, and PhD** Students enrolled in **any AGU University**.
  - Open to **all disciplines** — Engineering, Science, Management, Humanities, Social Sciences, and more!
- 

## What Are We Looking For?

Submit your exciting ideas in one of the following categories:

- **Prototype Development:** Design and construct functional models, devices, or systems aimed at solving real-world challenges.
- **Innovation Projects:** Create original ideas, products, or services that offer practical and scalable solutions.
- **Research Projects:** Undertake systematic investigations to generate new knowledge, drive improvements, or enable breakthrough technologies.

- **Impact Assessments:** Analyze and document the social, economic, or technological effects of implemented innovations.
  - **Industry Live Projects:** Collaborate with industry partners to address real-time problems through hands-on, field-based project work.
- 

## Suggested Broad Themes

- Themes aligned with UN Sustainable Development Goals (SDGs)
  - Engineering & Technology
  - Artificial Intelligence, Machine Learning, IoT, Robotics 
  - Green Energy, Sustainability, Environment 
  - Healthcare Innovations 
  - Smart Cities and Urban Solutions 
  - Agriculture and Food Technology 
  - Education Technology 
  - Social Innovation and Rural Development 
  - ...and any other impactful or cutting-edge idea!
- 

## Submission Guidelines

- Each project should be led by a Student Principal Investigator (PI), under the guidance of a Faculty Mentor, with additional students participating as Co-Principal Investigators (Co-PIs).
- Applicants must be currently enrolled students from any university within the AISECT Group of Universities (AGU).
- All proposals must be submitted strictly in the prescribed format attached.
- A panel of domain experts will review the submissions and make the final decision regarding funding.
- Interdisciplinary teams are encouraged to maximize the scope and impact of the project.
- Any resulting Intellectual Property or Research Publication will be credited to the respective university.

## Important Dates

- **Last Date for Proposal Submission:** 15<sup>th</sup> June 2025
- **Results will be announced within one month after the application deadline.**

- **Submission Mode:**

Email your proposal to: [crig\\_agu@aisect.org](mailto:crig_agu@aisect.org) with the subject line: ***"Proposal Submission of Students – CRIG-AGU Initiative"***

---

## **Support You Will Get**

- **Access to CRIG-AGU Facilities** (labs, equipment, tools, workspaces) 
  - **Expert Mentorship** from faculty and industry professionals    
  - **Opportunities to exhibit** your projects at Innovation Exhibitions, Competitions, and Pitching Events 
  -
-
